The first justallment of the income and profits taxes for 1920, the figures on which are now available, shows that New York contributed approximately 23 per cent, of the grand total for the United States, These figures do not tell the whole story tot the extent of New York's predominance as a taxpayer, because the A flig corporations of the State uniformy paid the exact one-fourth of the otal required by law on March 15. Many other States, where the individual and corporation returns were smaller, sent in more than one-fourth of the aggregate in the initial payments. United States Attorney Ross of Brooklyn said to-day that a Williamsburg reportment store, one of the largest in the district, had made a written voluntary agreement, after a consultation with himself and A. W. Reilly of the with nimser and A. W. Reilly of the Department of Justice anti-profiteering forces, to reduce profits on many lines of goods, inculding all men's wear and underwear, infants' wear, on all shoes, women's allk underwear and thin un-derwear, corsets, house dresses, sulls, girls' sults, gloves and many other ne-cessitie.
